

SETUP FOR A4DABLE CREDIT PROVIDER SOFTWARE WITH COMPUSCAN

Step 1: Install the CompuScan Registry Settings

Running Windows 95, 98 or ME? Click and run these 2 scripts: [Script1](#) & [Script2](#).

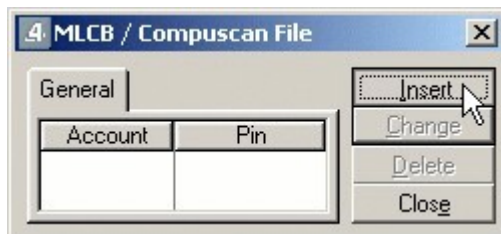

Running Windows 2000 or XP? Click and run these 2 scripts: [Script1](#) & [Script2](#).

Step 2: Install the CompuScan DLL Files

Step 3: **Phone us** to make sure that your config file is set up for CompuScan.

Step 4: Configure the A4 program to use CompuScan

Once in A4dable Credit Provider Software, choose MLCB/CompuScan from the Maintenance menu.

Insert your CompuScan Username, Password and Branch Code and click OK. The CompuScan Branch Code must only contain numerics (i.e. no alpha numeric characters).
